### **Owner brushing/combing training session**

This short session is designed for owners that have dogs with long/curly coats that are struggling to keep their dog matt free between grooms. Brushing a high maintenance coat out to leave no knots is not easy to do. Handling of the dog is an important step and there are certain techniques that can be used and various tools on the market. We will teach the owner the correct and easiest way to keep their dog tangle free and most importantly provide information on the correct tools for their dogs coat type.

The combination course is for people looking to start a career in dog grooming. It provides full training on all aspects of grooming from start to finish.

We offer weekly payments plans for the training and exams can be paid for when approaching the date of your exam.

All courses are for all ages starting from 16 + years of age.

We recommend that 16-18 year olds take the level 2 and level 3 separately.

The 24 day level 2 course followed by the level 3 as the combined course only covers 12 days of level 2 training which for younger, less experienced learners isn't really suitable and may result in the student failing the exam if rushed, we aim to have our learners pass first time.

The courses run from a Monday through to a Thursday, days can be tailored around the need of any student that would struggle with certain days.

You will have access to both Ruth and Clare's full support and added to a whatsapp group for extra support. At any time.
